

Robyn Maly

Hi! I'm Robyn Maly, a Registered Nurse and clinical nurse coordinator at Physician Research Collaboration.

I earned my nursing degree from Bryan School of Nursing in 2003 and have had a rich and rewarding career in a variety of clinical settings. I've been with PRC since 2014 and am proud to be a part of research to improve care and quality of life in others. I'm passionate about my nursing career and love to listen and get to know each patient I see. I believe that education is the key to happy and successful patients and I strive to ensure everyone I see feels well cared for.

Outside of work I keep busy running around with my husband and three children. I'm active in our church community and scouting with my daughters. We enjoy sports and travel, and spending time with extended family and friends.
